Following the recent death of HRH The Duke of Edinburgh, in which part of the London Bridge Protocol—the Forth Bridge Protocol was activated; the Protocol has been updated through a formal debrief session which looked at improving the Council's response to any future activations.

The Resilience Team would like to meet with Town and Parish Clerks to provide an opportunity to share and discuss updates and current activities around the Protocol, specifically around the London Bridge protocol.

This session will outline the current understanding of the London Bridge activation and actions required of civic officers and provide the opportunity to discuss any concerns or issues that may arise.
